

REQUEST FOR PROPOSALS FOR RECLAMATION/LEVEE MAINTENANCE SERVICES MUNICIPAL SERVICE REVIEW

The Solano Local Agency Formation Commission (LAFCO) is soliciting proposals from qualified consultants to prepare a municipal service review (MSR) of Reclamation and Levee Maintenance Districts in Solano County.

I. Objective

The Solano Local Agency Formation Commission (LAFCO) completed a MSR covering reclamation and levee maintenance services in Solano County in 2009; the study is available at the Solano LAFCO website. LAFCO is currently seeking a more robust and detailed reclamation district and levee maintenance MSR.

This MSR study is to be conducted by a professional consulting firm under the direction of the LAFCO Executive Officer. The work is to be performed in accordance with applicable California Government Code provisions and Solano LAFCO policies and procedures.

This MSR is intended to serve as a tool to facilitate dialogue among the various stakeholders with the objective of coordinating, collaborating, enhancing services and efficiencies, and affordability of the affected districts; and to provide information to support LAFCO actions, including: sphere of influence update and potential boundary and/or governance changes. LAFCO may use the MSR, together with additional analysis where necessary, to pursue boundary and/or governance changes.

II. About Solano County

Located approximately 45 miles northeast of San Francisco and 45 miles southwest of Sacramento, Solano County is bordered by Napa, Yolo, Sacramento, and Contra Costa counties.

The county covers 909.4 square miles, including 84.2 square miles of water area. There are seven cities, and 47 special districts including 24 reclamation districts and two levee maintenance districts. Note Reclamation District 2034 is excluded from this RFP. (See Attachment 1 for a detailed list of reclamation and levee maintenance districts)

III. Background

In 1963, the State Legislature created LAFCOs to help direct and coordinate California's growth in a logical, efficient, and orderly manner. Each of the 58 counties in California has a LAFCO. LAFCOs are charged with discouraging urban sprawl, encouraging orderly boundaries and formation of local agencies, preserving agricultural lands and open space, and regulating the extension of services outside jurisdictional boundaries.

In 2001, pursuant to the enactment of the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 (“CKH Act”; Government Code Section (GC§) 56000 et seq.), LAFCO acquired responsibility for preparing MSRs. On or before January 1, 2008, and every five years thereafter, LAFCO shall, as necessary, review and update the SOI for each local agency. In conjunction with the SOI updates, LAFCO shall prepare corresponding MSRs.

For MSRs, GC §56430 require LAFCO to prepare and adopt a written determination for each of the following considerations:

1. Growth and population projections for the affected area.
2. The location and characteristics of any disadvantaged unincorporated communities within or contiguous to the sphere of influence.
3. Present and planned capacity of public facilities, adequacy of public services, and infrastructure needs or deficiencies including needs or deficiencies related to sewers, municipal and industrial water, and structural fire protection in any disadvantaged, unincorporated communities within or contiguous to the sphere of influence
4. Financial ability of agencies to provide services.
5. Status of, and opportunities for, shared facilities.
6. Accountability for community service needs, including governmental structure and operational efficiencies.
7. Any other matter related to effective or efficient service delivery, as required by commission policy. (Solano LAFCO’s Standards and Procedures can be found online <http://www.solanolaftco.com/application.htm>)

IV. Scope of Services

The MSR study will include:

1. Determinations on each of the above seven topics as provided in Section III and as required by the CKH Act.
2. An identification of required governance and operational functions of the districts in accordance with their Principal Act/Enabling Legislation.
3. Identification of opportunities for collaboration with alternative service providers.
4. Implications of possible boundary changes including changes of organizations and reorganizations.
5. Analysis and recommendations for governance structure, enhancing services, efficiencies, and affordability.
6. Analysis and recommendations relative to the district’s status as an active or inactive district pursuant to CA Government Code Sections 56042 and 56879.
