INDEPENDENT AUDITOR'S REPORT

To the Commissioners of
Local Agency Formation Commission of Solano County
Fairfield, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the general fund and the aggregate remaining fund information of the Local Agency Formation Commission of Solano County (the "Commission"), as of and for the years ended June 30, 2016 and 2015, and the related notes to the financial statements, which collectively comprise the Commission's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the State Controller's Minimum Audit Requirements for California Special Districts. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the general fund and the aggregate remaining fund information of the Local Agency Formation Commission of Solano County as of June 30, 2016 and 2015, and the respective changes in financial positions for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion, Analysis and Schedule of Revenues, Expenditures and Changes in Fund Balance-Budget (Non-GAAP) and Actual - General Fund, Schedule of Proportionate Share of Net Pension Liability and Schedule of Contributions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Change in Accounting Principle

As discussed in Note 1 to the financial statements, the Commission adopted new accounting guidance, GASB Statement No. 68, Accounting and Financial Reporting for Pension – an amendment of GASB Statement No. 27, and GASB Statement No. 71, Pension Transition for Contribution Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68. The Commission has not restated the actual and pro forma effect of the Statements on the financial statements as of and for the year ended June 30, 2014. This data is not readily available due to an actuary study not being prepared in accordance with GASB 68 for measurement dates prior to June 30, 2014. Our opinion is not modified with respect to this matter.

The effects of this restatement are described in Note 5 to the basic financial statements. The Commission currently funds this obligation on a pay-as-you go basis. The Commission anticipates that its ongoing funding and current resources are sufficient to meet its obligations as they come due.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 3, 2017 on our consideration of the Commission's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Commission's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

LOCAL AGENCY FORMATION COMMISSION OF SOLANO COUNTY

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR THE YEARS ENDED JUNE 30, 2016 and 2015

As management of the Local Agency Formation Commission of Solano County, California (Commission), we offer readers of the Commission's financial statements this narrative overview and analysis of the financial activities of the Commission for the fiscal years ended June 30, 2016 and 2015. We encourage readers to consider the information presented here in conjunction with additional information in our financial statements.

Financial Highlights

- The Commission's net position totaled \$169,956 at June 30, 2016 and \$140,118 at June 30, 2015. These amounts may be used to meet the Commission's ongoing obligations to citizens and creditors.
- The Commission's total net position increased by \$29,838 as a result of the current year's operations and decreased by \$75,740 as a result of fiscal year 2014/15 operations.
- The Commission's governmental funds reported an ending fund balance of \$190,037 at June 30, 2016 and \$178,269 at June 30, 2015, of which \$190,037 and \$175,969 respectively, are available for spending at the Commission's discretion (unassigned fund balance).
 - At June 30, 2015, the remaining amount is nonspendable associated with advances for rent deposits.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Commission's basic financial statements. The Commission's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the Commission's finances, in a manner similar to a private-sector business.

The statement of net position presents information on the Commission's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Commission is improving or deteriorating.

The statement of activities presents information showing how the Commission's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of timing of related cash flows.

Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements can be found on pages 10-11 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR THE YEARS ENDED JUNE 30, 2016 and 2015

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Commission, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a Commission's near-term financing requirements.

Since the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the Commission's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The basic governmental fund financial statements can be found on pages 12-15 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 16-32 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Commission's budgetary comparison schedule for the General Fund and the schedule of funding progress for the retirement program. Required supplementary information can be found on pages 33-37 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a Commission's financial position. In the case of the Commission, assets exceeded liabilities by \$169,956 and \$140,118 at June 30, 2016 and 2015, respectively. The Commission's net position is entirely categorized as unrestricted net position which may be used to meet the Commission's ongoing obligations to citizens and creditors.

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR THE YEARS ENDED JUNE 30, 2016 and 2015

SUMMARY OF NET POSITION

	As of June 30:		
	2016	2015	2014
Current Assets	<u>\$ 261,574</u>	<u>\$ 224,645</u>	<u>\$ 307,884</u>
Total Assets	<u>261,574</u>	<u>224,645</u>	<u>307,884</u>
Deferred outflows of resources related to pensions	<u>36,213</u>	<u>16,554</u>	<u>-</u>
Current Liabilities	<u>71,537</u>	<u>46,376</u>	<u>46,753</u>
Long-Term Liabilities	<u>42,206</u>	<u>40,917</u>	<u>17,470</u>
Total Liabilities	<u>113,743</u>	<u>87,293</u>	<u>64,223</u>
Deferred inflows of resources related to pensions	<u>14,088</u>	<u>13,788</u>	<u>-</u>
Net Position	<u>\$ 169,956</u>	<u>\$ 140,118</u>	<u>\$ 243,661</u>

The key elements in the significant changes in current assets and liabilities are as follows:

Current assets: Current assets increased by \$36,929 or 16% from fiscal year 2014/15 to 2015/16. This is mainly due to increased intergovernmental revenue and a decrease in total program expenses which increased the Commission's cash balance.

Current liabilities: Current liabilities increased by \$25,161 from fiscal year 2014/15 to 2015/16. The primary reason for the increase is the increase in unearned revenue from project contracts that had yet to be completed.

Governmental activities increased the Commission's net position by \$29,838 during fiscal year 2015/16. Governmental activities decreased the Commission's net position by \$75,740 during fiscal year 2014/15. The key elements in the significant changes in net position are as follows:

SUMMARY CHANGES IN NET POSITION

	For the Year Ended June 30:		
	2016	2015	2014
Revenues	\$ 348,179	\$ 343,040	\$ 432,267
Expenditures	(318,341)	(418,780)	(349,597)
Excess (Deficiency)	<u>\$ 29,838</u>	<u>\$ (75,740)</u>	<u>\$ 82,670</u>

	As of June 30:		
	2016	2015	2014
Fund Balances	\$ 190,037	\$ 178,269	\$ 160,991
Net Position	\$ 169,956	\$ 140,118	\$ 243,661

Program expenses: Program expenses decreased from prior year due to the following:

Professional services decreased by \$70,454 due to one-time research contracts that were completed during the fiscal year 2014/15. There were no such contracts during fiscal year 2015/16. Employee services expenses decreased by \$13,970 during fiscal year 2015/16. This occurred due to a change in employee agreements in which the commission no longer paid the employee pension of pension contributions. There was a decrease in rent expense due to moving into the 675 office with a reduced monthly rental rate. As a result rent expense decreased by \$10,893.

Program revenues: Program revenues were stable from fiscal year 2014/15 to 2015/16. The decrease of \$89,227 from fiscal year 2013/14 to 2014/15 was due to a decision by the county to reduce the commission cost share charged to LAFCo's funding agencies (cities and county).

Financial Analysis of the Commission's Governmental Funds

As noted earlier, the Commission uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The General Fund is a governmental fund type used to account for general government functions of the Commission. The focus of the Commission's governmental fund is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Commission's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At June 30, 2016 and 2015, the Commission's governmental fund reported an ending fund balance of \$190,037 and \$178,269, respectively. Ending fund balance at June 30, 2016 is all unrestricted. Ending fund balance at June 30, 2015 consists of \$175,969 unassigned fund balance, and \$2,300 nonspendable associated with advances for rent deposits. The ending fund balance resulted in an increase of \$11,768 for the fiscal year ended June 30, 2016 and a decrease of \$82,862 for the fiscal year ended June 30, 2015.

LOCAL AGENCY FORMATION COMMISSION OF SOLANO COUNTY

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR THE YEARS ENDED JUNE 30, 2016 and 2015

Governmental revenues totaled \$348,179 in fiscal year 2016/15 and \$343,040 in fiscal year 2014/15. This represents a 1% increase from fiscal year 2014/15 to 2015/16 and a 21% decrease from fiscal year 2013/14 to 2014/15. The increase for fiscal year 2015/16 is due to the increase in operating costs billed to the County and cities. The decrease for fiscal year 2014/15 is due to a county decision to decrease operating costs apportioned and charged to the County and cities.

Expenditures totaled \$336,411 in fiscal year 2015/2016 and \$425,902 in fiscal year 2014/15. This represents a 24% decrease from fiscal year 2014/15 to 2015/16 and a 20% increase from fiscal year 2013/14 to 2014/15. The decrease for fiscal year 2013/14 is primarily due to reduction of employee services, and a reduction in professional services. The decrease for fiscal year 2015/16 is due to decreases in professional services and judgment and damages.

Budgetary Highlights

The General Fund budget (Adopted and Final versions) is reflected in the Schedule of Revenues, Expenditures, and Changes in Fund Balance- Budget and Actual, as presented on pages 33-34 in the Required Supplementary Information (RSI) section of this report.

There were no changes between the adopted budget and the final budget of the General Fund in fiscal year 2015/16. Revenues and expenses recognized were less than budget by \$41,506 and \$57,824, respectively. This was mainly the result of fewer project related services provided by the Commission as well as professional services were significantly less than anticipated.

There were no changes between the adopted budget and the final budget of the General Fund in fiscal year 2014/15. Revenues and expenses recognized were less than budget by \$28,255 and \$43,500, respectively. This was mainly the result of fewer project related services provided by the Commission as well as employee services were less than anticipated

Debt Administration

Long-term debt. At June 30, 2016 and 2015 the Commission had \$42,206 and \$40,917, respectively. The balances consisted of \$14,215 of compensated absences and \$27,991 of pension liability at June 30, 2016 and \$18,388 in compensated absences and \$22,529 in pension liability at June 30, 2015. This amount is entirely backed by the full faith and credit of the Commission. For more information see Note 3 on page 24 of this report.

GASB 68 was implemented in the 2014-15 year which required the net pension liability to be recognized. Previous pension liability of \$27,803 has been shown as a restatement of net position as of June 30, 2014 on the Statement of Activities. A reduction in the net pension liability of \$5,462 was recognized in the current year.

The implementation of GASB 68 resulted in deferred outflows of \$36,213 and \$16,554 as of June 30, 2016 and 2015, respectively and deferred inflows of \$14,088 and \$13,788 as of June 30, 2016 and 2015, respectively related to the net pension liability.

NOTES TO THE BASIC FINANCIAL STATEMENTS

JUNE 30, 2016 AND 2015

1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. ORGANIZATION

The Local Agency Formation Commission of Solano County (the “Commission”) was established in 1963 to administer a complex series of statutory laws and enabling acts that serve to encourage the orderly development and reorganization of Local Government Agencies, essential to the social, fiscal and economic wellbeing of the State. The Commission operates under the authority of Government Code Section 56000 and the Cortese-Knox Hertzber Local Government Reorganization Act of 2000.

The Commission is composed of five members who typically include two county supervisors, two city council representatives and one member representing the public at large. Commission members serve a four-year term.

B. BASIS OF PRESENTATION

Government-wide Financial Statements

The statement of net position and the statement of activities display information about the Commission. These statements include the financial activities of the overall government. Eliminations have been made to minimize the double counting of internal activities.

The government-wide statement of net position presents information on all of the Commission’s assets, deferred outflows, liabilities and deferred inflows with the difference between the two presented as net position. Net position is reported as one of three categories: net investment in capital assets, restricted or unrestricted. Restricted net position is further classified as either net position restricted by enabling legislation or net position that are otherwise restricted. The Commission currently has no capital assets and no restricted net position.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the Commission’s governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are, therefore, clearly identifiable to a particular function. The Commission does not allocate indirect expenses to functions in the statement of activities. Program revenues include charges paid by the recipients of goods or services offered by a program, as well as grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues, which are not classified as program revenues, are presented as general revenues, with certain exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the Commission.

The Commission reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function.

Fund Financial Statements

Fund financial statements report detailed information about the Commission. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. The Commission has only one operating fund.

LOCAL AGENCY FORMATION COMMISSION OF SOLANO COUNTY

NOTES TO THE BASIC FINANCIAL STATEMENTS

JUNE 30, 2016 AND 2015

C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Government-Wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Assessments and service charges are recognized as revenues in the year for which they are levied. Expenses are recorded when liabilities are incurred.

Governmental Fund Financial Statement

Governmental fund financial statements (i.e., balance sheet and statement of revenues, expenditures and changes in fund balances) are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded under the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Available" means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the Commission, "available" means collectible within the current period or within 60 days after year-end.

Non-exchange transactions, in which the Commission receives value without directly giving equal value in return, include assessments and interest income. Under the accrual basis, revenue from assessments is recognized in the fiscal year for which the assessments are levied. Under the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

D. FUND ACCOUNTING

The accounts of the Commission are organized on the basis of funds or account groups, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. The Commission resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The Commission has one governmental fund.

Governmental Fund:

The General Fund is the general operating fund of the Commission. It is used to account for all transactions except those required or permitted by law to be accounted for in another fund.

LOCAL AGENCY FORMATION COMMISSION OF SOLANO COUNTY

NOTES TO THE BASIC FINANCIAL STATEMENTS

JUNE 30, 2016 AND 2015

E. BUDGETS

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. By state law, the Commission must adopt a final budget no later than June 15th. A public hearing must be conducted to receive comments prior to adoption. The Commissioners' satisfied these requirements.

F. CASH AND CASH EQUIVALENTS

For purposes of the statement of net position, the Commission considers all short-term highly liquid investments, including restricted assets, amounts held with fiscal agent and amounts held in the County's investment pool, to be cash and cash equivalents. Amounts held in the County's investment pool are available on demand to the Commission.

G. CASH AND INVESTMENTS

As described in Note 2, the Commission's cash and investments are held with the Solano County Treasury, as part of the cash and investment pool with other County Funds. In accordance with GASB Statement No. 31, investments are stated at fair value. However, the value of the pool shares in the County Treasurer's investment pool that may be withdrawn is determined on an amortized cost basis, which is different from the fair value of the Commission's position in the pool. The County Treasurer's investment pool is subject to regulatory oversight by the Treasury Oversight Committee, as required by Section 27134 of the California Government Code. Statutes authorize the County to invest in the following:

1. Obligations of the County or any local agency and instrumentality in or of the State of California;
2. Obligations of the U.S. Treasury, agencies and instrumentalities;
3. Bankers' acceptances eligible for purchase by Federal Reserve System;
4. Commercial paper;
5. Repurchase agreements or reverse repurchase agreements;
6. Medium-term notes with a five-year maximum maturity of corporations operating within the United States and rated in the top three rating categories;
7. Guaranteed investment contracts

H. CAPITAL ASSETS

Capital assets, which may include land, structures and improvements, machinery and equipment, and infrastructure assets, are reported in the government-wide financial statements. Capital assets are defined as assets with an initial individual cost of more than \$5,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Capital outlay is recorded as expenditures of the General Fund and as assets in the government-wide financial statements to the extent the Commission's capitalization threshold is met. Amortization of assets acquired under capital lease is included in depreciation and amortization. Currently, the Commission has no items meeting the capital asset criteria.

I. COMPENSATED ABSENCES

It is the Commission's policy to permit permanent employees to accumulate earned but unused vacation and sick leave benefits. Accrued vacation is paid at the time of the employee's separation based on established Commission limitations. When an employee terminates employment for reasons of regular or disability retirement or death, accrued sick leave is contributed to a Retirement Health Savings Account to assist in payment of retiree medical expenses in accordance with Commission policy. Termination of an employee's continuous services, except by reason of temporary layoff for lack of work or funds, shall cancel all sick leave accrued to the time of such termination, regardless of whether or not such person subsequently re-enters employment. Compensated absences leave is accrued when incurred in the government-wide financial statements. A liability is reported in the governmental fund only if unused vacation and sick leave after limitations are expected to be liquidated (paid out due to an employee separating from service with the Commission) with expendable available financial resources.

J. REVENUES

Operating revenues, which include service charges, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Revenues classified as non-operating revenues, such as assessments and investment earnings, result from non-exchange transactions or ancillary activities.

K. INCOME TAXES

The Commission is not subject to income tax under Section 115(1) of the Internal Revenue Code and Section 23701d of the California and Taxation Code. Accordingly, no provision for federal or state income taxes has been made in the accompanying financial statements.

L. USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

NOTES TO THE BASIC FINANCIAL STATEMENTS

M. FUND BALANCE

In accordance with Governmental Accounting Standards Board (GASB) Statement No. 54, "*Fund Balance Reporting and Governmental Fund Type Definitions*", the Commission is required to report fund balances in the following categories: Nonspendable, Restricted, Committed, Assigned and/or Unassigned.

Nonspendable Fund Balance reflects assets not in spendable form, either because they will never convert to cash (e.g. prepaid expense) or must remain intact pursuant to legal or contractual requirements.

Restricted Fund Balance reflects amounts that can be spent only for the *specific purposes* stipulated by constitution, external resource providers, or through enabling legislation.

Committed Fund Balance reflects amounts that can be used only for the *specific purposes* determined by a formal action of the government's highest level of decision-making authority: the Board of Commissioners. Commitments may be established, modified, or rescinded only through resolutions approved by the Board of Commissioners.

Assigned Fund Balance reflects amounts intended to be used by the government for *specific purposes* but do not meet the criteria to be classified as restricted or committed. In accordance with adopted policy, only the Board of Commissioners is authorized to assign amounts for specific purposes.

Unassigned Fund Balance represents the residual classification for the government's general fund and includes all spendable amounts not contained in the other classifications.

When expenditures are incurred for purposes of which restricted, committed, assigned and unassigned fund balances are available, the Commission considers restricted funds to have been spent first, followed by committed, assigned and unassigned, respectively.

N. DEFERRED INFLOWS AND OUTFLOWS

In addition to assets, the statement of net position includes a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s), and as such will not be recognized as an outflow of resources (expense/expenditures) until then.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and as such, will not be recognized as an inflow of resources (revenue) until that time

O. CHANGE IN ACCOUNTING PRINCIPLE

In June 2012, the GASB issued Statement No. 68, Accounting and Financial Reporting for Pensions – An Amendment of GASB Statement No. 27. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities.

This Statement replaces the requirements of Statement No. 27, Accounting for Pensions by State and Local Governmental Employers, as well as the requirements of Statement No. 50, Pension Disclosures, as they relate to pensions that are provided through pension plans administered as trusts or equivalent arrangements (hereafter jointly referred to as trusts) that meet certain criteria. The requirements of Statements 27 and 50 remain applicable for pensions that are not covered by the scope of this Statement.

The scope of this Statement addresses accounting and financial reporting for pensions that are provided to the employees of state and local governmental employers through pension plans that are administered through trusts that have the following characteristics: contributions from employers and nonemployer contributing entities to the pension plan and earnings on those contributions are irrevocable; pension plan assets are dedicated to providing pensions to plan members in accordance with the benefit terms; and pension plan assets are legally protected from the creditors of employers, nonemployer contributing entities, and the pension plan administrator. If the plan is a defined benefit pension plan, plan assets also are legally protected from creditors of the plan members.

This Statement establishes standards for measuring and recognizing liabilities, deferred outflows of resources, and deferred inflows of resources, and expense/expenditures. For defined benefit pensions, this Statement identifies the methods and assumptions that should be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service.

For defined benefit pensions, this Statement requires the liability of employers and nonemployer contributing entities to employees for defined benefit pensions (net pension liability) to be measured as the portion of the present value of projected benefit payments to be provided through the pension plan to current active and inactive employees that is attributed to those employees' past periods of service (total pension liability), less the amount of the pension plan's fiduciary net position.

As of June 30, 2015, according to GASB 68, the Commission's total pension liability must be recognized. Therefore, the previous pension liability as of June 30, 2014 in the amount of \$27,803 has been shown as a restatement of net position on the Statement of Activities as a separate line item.

O. CHANGE IN ACCOUNTING PRINCIPLE (CONTINUED)

In November 2013, GASB issued Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date. The objective of this Statement is to address an issue regarding application of the transition provisions of Statement No. 68. The issue relates to amounts associated with contributions, if any, made by a state or local government employer or nonemployer contributing entity to a defined benefit pension plan after the measurement date of the governments' beginning net pension liability. This Statement amends paragraph 137 of Statement No. 68 to require that, at transition, a government recognize a beginning deferred outflow of resources for its pension contributions, if any, made subsequent to the measurement date of the beginning net pension liability.

Statement No. 68, as amended, continues to require that beginning balances for other deferred outflows of resources and deferred inflows of resources related to pensions be reported at transition only if it is practical to determine all such amounts. The provisions of this Statement are required to be applied simultaneously with the provisions of Statement No. 68 and are effective for the Commission's fiscal year ending June 30, 2015.

As of June 30, 2015, according to GASB 71, the Commission had subsequent contributions to the measurement date. As a result of the contributions, in the current year the Commission had deferred outflows of \$16,554 and deferred inflows of \$13,788 resulting from the implementation of GASB 71.

2. CASH AND INVESTMENTS

Cash and investments as of June 30, 2016 and 2015 consisted of Cash in County Treasury of \$261,574 and \$222,345, respectively.

The Commission maintains specific cash deposits and investments with the County of Solano and involuntarily participates in the external investment pool of the County. Its share of the investment pool is separately accounted for and interest earned, net of related expenses, is apportioned quarterly and based upon the relationship of its daily cash balance to the total of the pooled account. The weighted average maturity of the pool as of June 30, 2016 is 329 days and was 386 days as of June 30, 2015. The pool does not have a credit rating.

Investments, including derivative instruments that are not hedging derivatives, are measured at fair value on a recurring basis. Recurring fair value measurements are those that Governmental Accounting Standards Board (GASB) Statements require or permit in the statement of net position at the end of each reporting period. Fair value measurements are categorized based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments' fair value measurements at June 30, 2016 are as follows:

5. EMPLOYEE RETIREMENT PLAN

Plan Description

All qualified permanent and probationary employees are eligible to participate in Local Agency Formation Commission of Solano County’s cost-sharing multiple employer defined benefit pension plan administered by the California Public Employees’ Retirement System (CalPERS). Benefit provisions under the Plan is established by State statute and Local Agency Formation Commission of Solano County resolution. CalPERS issues publicly available reports that include a full description of the pension plan regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website.

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for the plan are applied as specified by the Public Employees’ Retirement Law.

The Plans’ provisions and benefits in effect as of June 30, 2016 and 2015, respectively, are summarized as follows:

5. EMPLOYEE RETIREMENT PLAN (CONTINUED)

Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for the Plan are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The Commission is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

For the years ended June 30, 2016 and 2015, the contributions recognized as part of pension expense for the Plan were as follows:

	Miscellaneous

5. EMPLOYEE RETIREMENT PLAN (CONTINUED)

Local Agency Formation Commission of Solano County's net pension liability for the Plan is measured as the proportionate share of the net pension liability. The net pension liability of the Plan is measured as of June 30, 2015, and the total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2015 rolled forward to June 30, 2016 using standard update procedures. Local Agency Formation Commission of Solano County's proportion of the net pension liability was based on a projection of the Commission's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. The Commission's proportionate share of the net pension liability for the Plan as of June 30, 2015 and 2014 was as follows:

Discount Rate

The discount rate used to measure the total pension liability was 7.65% (7.50% for 2015) for the Plan. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.65 (7.50% for 2015) percent discount rate is appropriate and the use of the municipal bond rate calculation is not deemed necessary. The long term expected discount rate of 7.65 (7.50% for 2015) percent is applied to all plans in the Public Employees Retirement Fund (PERF). The stress test results are presented in a detailed report called "GASB Crossover Testing Report" that can be obtained from the CalPERS website under the GASB 68 section.

According to Paragraph 30 of Statement 68, the long-term discount rate should be determined without reduction for pension plan administrative expense. The 7.50 percent investment return assumption used in this accounting valuation is net of administrative expenses. Administrative expenses are assumed to be 15 basis points. An investment return excluding administrative expenses would have been 7.65 percent. Using this lower discount rate has resulted in a slightly higher Total Pension Liability and Net Pension Liability. CalPERS checked the materiality threshold for the difference in calculation and did not find it to be a material difference.

CalPERS is scheduled to review all actuarial assumptions as part of its regular Asset Liability Management (ALM) review cycle that is scheduled to be completed in February 2018. Any changes to the discount rate will require Board action and proper stakeholder outreach. For these reasons, CalPERS expects to continue using a discount rate net of administrative expenses for GASB 67 and 68 calculations through at least the 2017-18 fiscal year.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the Commission's proportionate share of the net pension liability for each Plan, calculated using the discount rate for each Plan, as well as what the Commission's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

June 30, 2016			
	Discount Rate - 1% (6.65%)	Current Discount Rate (7.65%)	Discount Rate + 1% (8.65%)
Plan's Net Pension Liability	\$ 46,943	\$ 27,991	\$ 12,344

June 30, 2015			
	Discount Rate - 1% (6.50%)	Current Discount Rate (7.50%)	Discount Rate + 1% (8.50%)
Plan's Net Pension Liability	\$ 37,783	\$ 22,529	\$ 9,935

Pension Plan Fiduciary Net Position

Detailed information about each pension plan's fiduciary net position is available in the separately issued CalPERS financial reports.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

FOR THE YEAR ENDING JUNE 30, 2016 AND 2015

PURPOSE OF SCHEDULES

A - Schedule of Revenues, Expenditures and Changes in Fund Balance-Budget (Non-GAAP) and Actual - General Fund

The Commission employs budget control by object codes and by individual appropriation accounts. Budgets are prepared on the modified accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board. The budgets are revised during the year by the Board of Trustees to provide for revised priorities. Expenditures cannot legally exceed appropriations by major object code. The originally adopted and final revised budgets for the General Fund are presented as Required Supplementary Information. The basis of budgeting is the same as GAAP.

B - Schedule of Proportionate Share of the Net Pension Liability

Changes in assumptions, in 2016, amounts reported as changes in assumptions resulted primarily from adjustments to expected retirement ages of general employees.

Fiscal year 2015 was the 1st year of implementation, therefore only two years are shown.

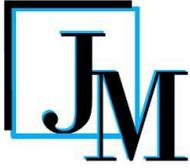

C - Schedule of Pension Contributions

If an employer's contributions to the plan are actuarially determined or based on statutory or contractual requirements, the employer's actuarially determined contribution to the pension plan (or, if applicable, its statutorily or contractually required contribution), the employer's actual contributions, the difference between the actual and actuarially determined contributions (or statutorily or contractually required), and a ratio of the actual contributions divided by covered-employee payroll.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND

INDEPENDENT AUDITOR'S REPORT

To the Commissioners of
Solano Local Agency Formation Commission Organization
675 Texas Street, Suite 6700
Fairfield, California 94533

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the governmental activities and major fund of Local Agency Formation Commission of Solano County, as of and for the years ended June 30, 2016 and 2015, and the related notes to the financial statements, which collectively comprise the Local Agency Formation Commission of Solano County's basic financial statements, and have issued our report thereon dated March 3, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Local Agency Formation Commission of Solano County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing an opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Local Agency Formation Commission of Solano County's internal control. Accordingly, we do not express an opinion on the effectiveness of Local Agency Formation Commission of Solano County's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

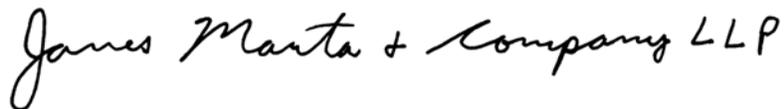

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Local Agency Formation Commission of Solano County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly this communication is not suitable for any other purpose.
